TITLE : SLOTMACHINE

ABSTRACT : **PROBLEM TO BE SOLVED:** To provide a slotmachine in which the unused space inside a cabinet body is effectively utilized so that dramatic presentation in accordance with play performance, and eye-catching effect can be obtained.

SOLUTION: When a first light source 7 and a second light source 8 are simultaneously lit by a flash control device, the light emitted from the second light source 8 is reflected by a half-mirror 5, and first pattern information 3 is projected on a top glass 12. On the other hand, the light emitted from the first light source 7 is transmitted through the half-mirror 5, and a second pattern information 6 is projected on the top glass 12. Thus, the first circular pattern information 3 and the second tree-shaped pattern information 6 are overlappedly projected on the front surface of the top glass 12.
